Applicant's election of invention IV, claims 1-5, 10, and 11, with traverse in the reply filed on February 9, 2006 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP§818.03(a)).

The application has been amended as requested in the communication filed February 9, 2006 and April 19, 2006. Accordingly, new claims 12-25 have been entered, claims 1-11 and 13-15 have been canceled, and claim 12 has been amended.

Claims 12, and 16-25 are pending and under consideration.

Claims 12, and 16-25 are allowed.

The following is an examiner's statement of reasons for allowance: The claims are directed to a nucleic acid encoding a polypeptide having 95% sequence homology to SEQ ID NO: 8 and having adenosine 5'-phosphosulfate reductase and method of using the nucleic acid. The claims are enabled and described in the specification. Both the nucleic acid of SEQ ID NO: 7 and the protein of SEQ ID NO: 8 are free of prior art. Thus, the claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nashaat T. Nashed, Ph. D. whose telephone number is 571-272-0934. The examiner can normally be reached on MTWTF.
